Judges

The International Beer Challenge is now in its fourteenth year and this is the eighth year that I have been Chairman of the Judges. It's a role I am delighted to hold. That's not surprising, perhaps, as it allows me to rub shoulders with some of the most experienced beer judges in the world and we taste some of the very best beers.

This year has been no exception. Our judges – selected from right across the industry, from brewers to retailers – have been dedicated and focused, and I am indebted to them for the professionalism they have, once again, brought to the competition. Entries have come from far and wide, from big brewers and from microbreweries, and I thank them for their support.

The beers they have submitted exemplify just how exciting the world of beer is today – how brewers are not just perfecting beer styles that have been around for centuries but also how they are expanding the horizons of beer lovers by creating new styles and experimenting with new techniques and ingredients.

There has never been a better time to drink bottled beer. But don't just take my word for it. Take a look at our list of winners and you'll see that for yourself.
